

CHRIS BERRY

**EMPLOYEE OF THE MONTH
AUGUST 2008**

Paramedic Chris Berry has proven to be self-motivated and an innovative thinker. For some time Chris worked on a 10-foot tall public relations idea. He researched to find the right stilts and purchased a pair. He then took two old pair of turnout pants, cut and sewed them, and made a very long pair. Not satisfied with this, Chris contacted Global Manufacturing, a manufacturer of turnout gear, and presented his plan asking if they could and would make him a custom pair. Global Manufacturing had never heard of such an idea before and was so impressed with it they made a super tall pair of pants, free of charge (\$1,000 value).

This past Westfest, Chris walked the entire parade route as a ten-foot tall fireman. Chris is a great representative for the City.

Thank you for your consideration.
